Bachelor of Science in Information Systems & Business Analytics |
Sam M. Walton College of Business, University of Arkansas, Fayetteville, AR December 2025

- Cumulative GPA: 3.943
- Magna Cum Laude
- Chancellor’s List & Dean’s List

TECHNICAL SKILLS

Power BI | SQL | Microsoft Office | Supply Chain Guru | Python (*familiar*)

WORK EXPERIENCE

Transportation Strategy Logistics Intern (Year-Round) | Tyson Foods June 2025- Present

- Support transportation strategy initiatives by developing analytics that inform cost, performance, and network decisions
- Design and enhance Power BI dashboards used to evaluate shipment trends, lane-level performance, and savings opportunities
- Synthesize findings into concise narratives that emphasize business impact over raw metrics

SELECTED PROJECTS

FirstStep Finance App (Scrum & Coke | Product & Analytics Project) Fall 2025

- Co-developed a budgeting and personal finance application using C#, SQL Server, and Visual Studio
- Designed and managed relational databases supporting transactional and analytical use cases
- Built analytical views to surface spending patterns, budget variance, and savings insights
- Operated in an Agile/Scrum environment with sprint planning, backlog prioritization, and iterative delivery

Lean Process Improvement Project (Toyota Kata Framework) Fall 2025

- Applied Lean, PDCA, and Toyota Kata methodologies to analyze and improve operational workflows
- Conducted value stream mapping and root-cause analysis to identify inefficiencies
- Developed data-supported recommendations balancing operational feasibility and customer impact
